Excerpts from ODP Div/Staff Reports for Week Ending 20 May 1983ApplicationsCAMS2 (P/S) Performance and Time-Line Analysis

In support of TRW's system performance and time-line analysis activity, Chris Weller, a contractor to ED, has provided CAMS Division with elapsed time and input/output multiplier factors for several GIM categories. TRW is scheduled to have similar data for the Intelligent Database Machine (IDM) in two weeks. TRW has identified those processes which will be analyzed and is currently developing performance algorithms for each process. [REDACTED]

Arrivals and Departures:

[REDACTED] a Summer Only, EOD'd in ED on 16 May 25X1
[REDACTED] a Summer Only, EOD'd in CSS on 16 May.
[REDACTED] a Summer Only, EOD'd in SPS on 16 May. 25X1
[REDACTED] a Summer Only, EOD'd in SSD on 16 May. 25X1
[REDACTED] was reassigned to SPD for OC on 16 May. 25X1
[REDACTED] resigned from the Agency on 13 May. She was on 25X1
a rotational assignment from OS to CAMS. [REDACTED] 25X1

Beginning 6 June, the Telephone Branch will be conducting classes in the operation of the new secure voice telephone system (green phone) scheduled to become operative on 6 June. Classes will be conducted four times a day (0900, 1100, 1300, and 1500 hours). The ODP Training Assistant will be in touch with those individuals who will be using the secure voice system to set up a schedule of training. [REDACTED] 25X1

Processing

Personnel from SPD and IBM Research at Yorktown Heights visited several large, internal IBM facilities on the West Coast as part of our Joint Development Effort on SSI for SAFE. The IBM facilities on the West Coast agreed to install the VM shared spool code from Yorktown based upon the Agency's successful experience with it. In turn we were able to understand how a large IBM facility with 10 VM computers in three clusters is able to handle a VM directory with 38,500 users. This provided us with a basic design approach for the VM directory in an SSI environment, which was the primary purpose of the trip. [REDACTED] 25X1

Personnel from SPD visited IBM Gaithersburg for a debriefing on the Early Support Program for HPO 2.5, which is 32 meg support for VM. The HPO was needed by both SAFE and the Ruffing Computer Center to support the hardware. Agency personnel found that only ourselves and one other non-IBM account is running this level of software. Discussions centered around software support by IBM to accounts involved in an Early Support Program and how this service could be improved. [REDACTED] 25X1

Personnel Assignments:

[REDACTED] has been reassigned to ED as Chief of 25X1
the Division. He can be reached on [REDACTED] GD5313 Hqs. 25X1

MEMORANDUM FOR: Deputy Director for Administration

FROM:

[REDACTED]

Director of Data Processing

STAT

SUBJECT: ODP Report for Week Ending 20 May 1983

1. SAFE

Four Northside Computer Center personnel toured the DIA Computer Facility at Arlington Hall on 18 May. Future visits to the Pentagon and Arlington Hall are planned.

2. Common-Use Automated Registry Systems (CARS)

A version of interim CARS has been installed as a development database for the Information Management Staff, DDO. The database, named TDOTEST, was made operational for DO testing on 12 May.

3. Community Information Retrieval System (CIRS)

On 13 May, CIA representatives to the CIRS Management Group and CIRS Security Working Group met with [REDACTED] Chairman, CIRS Management Group, to discuss Agency concerns and non-concurrence with the proposed tasking statement for the CIRS Security Working Group, and the work statement for support of the CIRS Computer Security Working Group. The meeting ended with substantial agreement on a revised tasking and work statement.

4. Excess Equipment

A meeting was held on 13 May, at the Government's request, with Burroughs Corporation to discuss the disposition of the SAFE Project's four remaining excess Burroughs computer systems. Government participants were [REDACTED] the Contract Officer for SAFE; and [REDACTED] of ODP's Policy and Plans Group. The purpose of the meeting was to notify Burroughs Corporation of the closing of the SAFE Development Facility and to discuss options available for satisfactorily completing the placement effort in a timely

manner. ODP's Management Staff was subsequently notified on 16 May that Burroughs Corporation has agreed to widen their effort and announce the availability of the systems throughout the Federal Government. (The search has originally been restricted to just Intelligence Community agencies.) Discussion with Burroughs on placement of the systems continues.

5. Significant Events During Coming Week
